

Built for real operations teams

The seller-facing portal is designed to stay usable across languages, workflows, and day-to-day support environments.

-  Multi-language support for broader operational use
-  Dark mode support for continuous dashboard usage
-  A clean seller-facing experience for 3PL customers
-  Part of a broader fulfillment support ecosystem

56 This deck focuses on the seller-side email automation workflow. The TV dashboard and broader admin/analytics functionality can be presented separately.

CASE STUDY

3PL Email Automation Workflow

From order issue to carrier reply — one automated workflow for fulfilment teams.

Review shipped orders and start investigations

Attach evidence and route to the right carrier

Keep replies and case progress visible in one portal

Real workflow examples

Shipped orders

Review shipped orders that are still eligible for investigation and start a carrier query with the right evidence.

CASE STUDY

Every investigation stays traceable

Case status, carrier responses, and follow-up communication remain visible in one portal experience.

-  Open, awaiting-carrier, and resolved statuses
-  A centralized timeline of updates
-  Reply drafts and attachments in context
-  No need to jump across disconnected tools

Investigation queries

See what has been sent, what is still waiting on a carrier, and which cases are resolved or need attention.
